

### **10-day forecast**

If you're hanging on to the words of the weathercaster as if they have the secret to life, please be assured you're not alone. If you just can't make it any longer, come in for a look and a whiff of spring indoors. We're setting up our retail greenhouse and there are many fragrant and colorful blossoms to cheer us up until the weather cooperates.

### **Grass Seeding**

Once the ground thaws, one of the projects you can get rolling on is grass seeding. The window is short in spring so be ready. We are still pleased to represent Mankato's Ramy Seed high quality grass seed mixes and can help you with any lawn or yard strategy.

### **Upcoming Classes**

There's still room in our Kids Make & Take classes set for Saturday morning or afternoon. Call us to save a spot for your tot. They pot up an unlimited number of container of annual flowers of their own design. We then grow the plants for you and the kids can pick them up around Mother's Day.

We've had plenty of interest for our Get Ready to Garden Saturdays full of seminars on April 5 and 12. Check out the complete list at [www.drummersgardencenter.com](http://www.drummersgardencenter.com) Please call us to register for the seminars so we will have a seat for you: 507-388-4877 or 800-536-0758.

### **Saturdays, April 5 and 12**

#### **Pansies & Pals**

Yes you can have flowers this early! Come in and pot up a pansy bowl with colorful, frost-tolerant companions like dianthus, diascia, nemesia, snapdragons and verbena. A 12" pot of pansies will be \$10 and then each additional pal will cost \$3.99. There's no need to register. *Drop in anytime from 12pm-3pm both days and take the planter home when you're done.*
